REGULATIONS ON BONUS PAYMENT

Set Forth Papers Discharged Soldier, Sailor or Marine Shall Send to Washington

TO COLLECT \$60 DUE THEM

Regulations Received by Local Army Board Today, Also Define Classes Entitled to Bonus

Regulations governing the payment of the \$60 bonus, provided for in the revenue act passed February 24, to soldiers, sailors, marines and nurses, who are now or have been in the government service, were received today by the county army selection board. They were sent by Major Robert C. Baltzell, state conscription officer, who received them from the director of finance of the war department. Many inquiries have been received by the local board regarding methods to follow to get the bonus.

The regulations disclose that no blank forms are necessary for the discharged soldier, sailor, marine or nurse to make application for his or her bonus. They do have to make application in a formal way, however, and all such applications shall be sent to the Zone Finance Officer, Lemon building, Washington, D. C., who is designated to settle the claims.

Such applications shall contain the discharge certificate, or order for discharge or relief, if no certificate was issued, but both certificate and order if both were issued, the paper bearing indorsement of final payment being required; a statement of all military service since April 6, 1917, showing place and date of reporting at first military station, and address to which check is to be sent.

When the bonus is paid, the regulations state, all papers will be sent to the applicant with his or her check. No further correspondence will be necessary except to advise the finance office of a change in the address of the applicant.

The regulations define who is entitled to the bonus, as "all persons serving in the military or naval forces of the United States during the present war who have since April 6, 1917, resigned or been discharged under honorable conditions, or who at any time hereafter (but not later than the termination of the current enlistment or term of service) in the case of the enlisted personnel and female nurses, or within one year after the termination of the present war in the case of officers, may resign or be discharged under honorable conditions."

The regulations further provide that the bonus shall not be paid to the following classes of persons: Any who though appointed or inducted into the military or naval on or prior to November 11, 1918, had not reported for duty at his station on or prior to such date; any person who has already received one month's pay under the provisions of section 9 of the act entitled, "An act to authorize the president to increase temporarily the military establishment of the United States," approved May 18, 1917; or to any person who is entitled to retired pay; or to the heirs or legal representatives of any person entitled to any payment under this section who has died or may die before receiving such payment.

It is further provided that in the case of any person who subsequent to separation from the service has been appointed or inducted into the military or naval forces of the United States and has been or is again separated from the service, only one payment of \$60 shall be made. Persons still in the service get their bonus upon being discharged.

SAMUEL BLACKBURN IS DEAD

Former Rushville Man Expires Suddenly at Mooreland

Samuel Blackburn, formerly a resident of this county, died at his home near Mooreland, Henry county shortly after noon yesterday. Mr. Blackburn moved from this county to Mooreland about three years ago. He was well known, having been a member of both branches of the Odd Odd Fellows lodge. Death was believed to have been caused by heart trouble as he had not been well for some time. He was sitting in a chair and was found dead by a daughter. He is survived by three daughters and two sons. Local Odd Fellows received word yesterday evening of his death.

RECEIVES WORD OF EASTHAVEN FIRE

J. L. Cowing, Trustee, Informed Question of Rebuilding Will be Taken up at Meeting Sunday

PHONE CALL FROM DR. SMITH

J. L. Cowing, trustee of the eastern Indiana insane hospital near Richmond, received word this morning from the superintendent, Dr. S. E. Smith, by telephone, of the fire last night which resulted in the destruction of the men's hospital building and the death of John H. Lehman, a patient formerly a Muncie man who was taken to the institution last fall for treatment.

Dr. Smith told Mr. Cowing that a special meeting of the board of trustees of Easthaven would not be called to deal with the situation because the regular meeting will be held next Monday and the subject of rebuilding the hospital will then be considered. Mr. Cowing said that the legislature would be asked for an appropriation because the loss amounted to \$25,000 and the institution has no funds with which to rebuild. The state does not carry insurance on its buildings, Mr. Cowing says.

Supt. Smith informed Mr. Cowing that the patient who escaped after the fire last night, was caught this morning on the national road not far from Richmond. The origin of the fire is a mystery. The men's hospital, which was built about 18 years ago, and the infirmary, were connected by a kitchen and dining room for the use of the patients, but the infirmary was saved through the timely work of the Richmond fire department.

WOMAN IS ADMITTED TO PRACTICE OF LAW

Miss Anna Bohannon, Clerk in A. L. Gary's Office, Acts in True Masculine Fashion

"SETS 'EM UP" TO CIGARS

Miss Anna Bohannon, who resigned as book-keeper at the Rushville National bank March 1 and accepted a position as a clerk in A. L. Gary's law office, was admitted to the Rush county bar, to practice law here, in the circuit court this morning. Miss Bohannon acted in true masculine fashion and promptly "set 'em up." She left two boxes of good cigars in custody of Luther B. Downey, court bailiff, with the request that they be passed out to her friends when they came into the court room.

Miss Bohannon was said today to be the first woman ever admitted to the practice of law in Rush county. She has had long experience in business here having served as deputy county auditor for twelve years before becoming associated with the Rushville bank about ten years ago.

COLLECTORS TIME EXTENDED 2 DAYS

J. J. Keene and C. M. Barnes, Income Tax Men, Instructed to Remain Until Saturday Night

TAXPAYERS WAIT THEIR TURN

Statement Today From Internal Revenue Collector Defines Term "Head of a Family"

J. J. Keene and C. M. Barnes, deputy internal revenue collectors who have been at the sheriff's office in the court house since Monday morning helping taxpayers fill out their income tax blanks, received a telegram this morning extending their stay here from tonight until Saturday night. Their first instructions were to remain until Thursday night, and the way taxpayers have been keeping them busy indicates that the extension will be of great benefit.

The collectors have been occupied every minute of the time since they have been in Rushville. On arriving at the office in the morning, they find several men waiting for information regarding the income tax law and all day long taxpayers sit outside the office awaiting their turns for consultation with the collectors. The office is open from 8 a. m. to 9 p. m.

A statement issued today by Collector of Internal Revenue Kruyer defines the exact meaning of the designation "head of a family," such person being allowed the \$2,000 exemption granted a married person in the filing of an income tax return.

"A head of a family," said Collector Kruyer, "is a person who actually supports in one household one or more persons closely connected with him by blood relationship, relationship by marriage or by adoption. Whether in the absence of continuous residence with his dependents a person is the head of a family depends upon the character of the separation.

"If the benefactor is absent on business or on account of military or naval service, or a child or other dependent is absent temporarily at school or on a visit, the common home being maintained, the exemption of \$2,000 applies. If, however, the dependent continuously makes his home elsewhere, the benefactor, irrespective of the question of support, is not the head of a family.

"In the case of man and wife, the joint exemption of \$2,000 allowed a married couple replaces the individual exemption allowed each only if they live together. Unavoidable absence of a wife or husband at a sanatorium or asylum on account of illness does not preclude claiming the exemption. If, however, the husband continuously and voluntarily makes his home at one place and the wife at another, each must file an individual return of net income of \$1,000 or more, and each is assessed on the amount of net income in excess of \$1,000.

LURKING HOPE FOR SESSION

Some Congressmen Believe President May Call Congress Soon

Washington, Mar. 6.—There is a lurking hope among some members of congress still in Washington, that an extra session may yet be called before the president's return, they said today.

This proposal is based on the frantic statement of railway men left in the lurch by the senate's failure to provide funds badly needed by the railway administration, which they think will be the strongest pressure brought to bear upon the president from this source to get congress back at work. It is believed unlikely by democrats that the president will not call an extra session before May.

HOPES TO APPEASE GERMAN REBELS

Socialist Delegation Returns From Weimar With Consent of Government to Form Party

SITUATION IS WELL IN HAND

Many Workers Refuse to Join General Strike, Which was Proclaimed as Revolution

(By United Press) Copenhagen, Mar. 6.—A large socialist delegation has returned from Weimar with the consent of the German government that the workmen and soldiers council shall form an organic party, it was reported in dispatches received from Berlin today.

Hope was expressed that this would satisfy the rebels who are now promising workers that Russian grain would be shipped into the country if a German-Soviet republic is established.

The sections of the city where the revolution centered, has been isolated by barb wire entanglements. Another raid against police headquarters was started but was repulsed.

Casualty lists have been extremely light, one report being that not more than 12 persons have been killed.

Many workers refused to join the general strike, which has been proclaimed a nation-wide revolution.

The government so far had not been seriously endangered. All governmental work was to be directed from Weimar until order was completely restored in Berlin.

Unconfirmed reports were received that a number of heavily armed raiders were advancing on Weimar for the purpose of looting the town.

MILITARY AND NAVAL TERMS ABOUT READY

Expected to be Completed Today for Ratification by Wilson and Allied Premiers.

FRONTIERS TO BE NEXT TOPIC

(By United Press) Paris, Mar. 6.—Military and naval terms of the revolutionary peace with Germany were expected to be practically completed at today's session of the supreme war council, preparatory to their ratification by President Wilson, Premier Lloyd George and Premier Orlando.

Lloyd George was to be advised by Col. House of the work accomplished during his absence in London, after which he was to join the other conference.

The question of readjusting Germany's frontiers was expected to be taken up tomorrow.

Food release for central Europe occupied the bulk of the council's discussion yesterday. It was also brought out that lack of the adequate transportation is seriously interfering with distribution of food supplies in Roumania and the Czechoslovak republic.

PROMOTED TO CAPTAIN.

IS HELD TO THE GRAND JURY

Paul Spacey Pleads Guilty to Passing Bogus Check.

Paul Spacey, who has been in jail more than a week on a charge of issuing fraudulent checks, pleaded guilty when arraigned before Spire J. P. Stech late yesterday afternoon and was bound over to the grand jury. The affidavit was filed against Spacey by T. E. McAllister, who alleged that Spacey gave him a check for \$15 with no funds in the bank. A similar charge has just been filed by Bliss and Cowing before Squire Stech. It is alleged that Spacey passed a check for \$15 at Bliss and Cowing's store December 9, 1918, when he had no bank account.

BLAMES UNITED STATES FOR BOLSHEVIK SPREAD

Raymond Robins Tells Committee Government Did Not Respond to Red Cross Appeal.

SENT A MAN, NOT THE MONEY

(By United Press) Washington, Mar. 6.—Failure of the United States to reply promptly to an appeal from the American Red Cross mission in Russia for help in the fight against the Bolsheviks, gave the Bolsheviks control. Raymond Robins told the senate Bolshevik investigating committee today.

Robins was a member of the Red Cross mission in Russia. He said that Col. William Thompson, commander of the commission, cabled the United States through the Red Cross, asking for \$1,000,000, immediately and \$1,000,000 a month for three months to be used in anti-German and anti-Bolshevik propaganda. "We waited a long time to reply," said Robins, "and when it came it stated that a representative of the committee on public information would be sent to Russia." When this man got there the Bolsheviks had tried to help the Bolsheviks were untrue.

Administration Leaders, Facing Possible Special Session, Meet With Protests

"STEAM ROLLER" IS THE CRY

Tax Bill Still Before Senate as Committee of the Whole, With Important Measures Pending

(By United Press)

Indianapolis, Ind., Mar. 6.—Facing the possibility that a special session of the legislature may have to be called to pass the necessary appropriation bills, administration leaders in the senate today used every possible method to speed up action.

Their efforts met with protests from democrats and the republican faction led by Lieut. Gov. Bush, who stated that "steam roller" methods were being used. The fight resulting was the bitterest seen on the senate floor in years.

When the senate opened, the tax bill was still before the senate as a committee of the whole and prospects were that consideration of it would not be completed before adjournment Monday night, unless stringent methods were adopted. Senator Beardsey introduced a motion to limit all speeches to three minutes and that no senator could yield his time to another. Besides the tax bill, he said, the senate had to consider the two appropriation bills, the conservation, banking department, workmen's compensation, and child labor measures, if a special session is to be avoided.

Out of nearly 1,000 bills introduced in both houses, only 40 have been made laws so far.

Senators McKinley and Kiper, in seconding the Beardsey motion, declared that the rule was necessary to prevent a filibuster which was evidently being conducted by opponents of the measure tried to speak on the rule but Senator Negley, republican floor leader, who was in the chair, refused to recognize them. Elsner declared that he did not know we had a kaiser in Indiana. He appealed for a further ruling of the chair and demanded a roll-call vote. Negley refused to call the roll and asked for ayes and noes. After the vote he declared that the chair had been upheld although democrats and some republicans declared it had not.

Senator Smith, republican, protested against such a "German ruling." Negley called for a vote on the Beardsey motion, again refusing a demand that the roll be called and announced that the motion had carried, although again there were many claims from Bush's followers and democrats that it had not.

Consideration of the tax bill was then continued and under the rule it was regarded probable that it would be ready for a vote tonight.

The following amendments were adopted: raising salaries of all assessors; providing that all real property shall be assessed at value; providing for assessment of real estate other than every four years; allowing county assessors who are discharged to appeal to the circuit court; preventing hire of tax forfeits by county commissioners; allowing state secretary and auditor to work with the governor in appointing members of the board; raising salaries of members of the state board of tax commissioners to \$6,000 yearly and allowing the board to fix the tax levy for the next two years only.

The Nedil amendment to the administration taxation measure, which would have stricken out the power of the state board of tax commissioners to remove a township assessor or deputy assessor from office upon charges of incompetency and appoint a successor.

DEPEND UPON PATRIOTISM

Railroads Must Have Cooperation if
Demands are Meant

(By United Press.)

Washington, Mar. 6.—The railroad administration will have to depend upon patriotic cooperation of all financial business interests if the railways and the whole financial corporation is to meet the unexpected situation, director General Hines declared today. Hines made it clear it is the plan of the railroads not to drop any improved plan unless absolutely necessary. Increase in rates is not contemplated, Hines said. So far as present plans have developed, no labor will be laid off and he indicated that any disturbances of the railroad labor would be the last move made.

The Readjustment.

The much discussed, frequently talked and oft-repeated term "readjustment", will take care of itself if left alone. With distorted countenances and weird gestures many go about the land bemoaning the fact that the readjustment period is just ahead and that it contains many pitfalls and dangerous nooks and corners.

Meanwhile Mr. So-called Readjustment is marching steadily forward in the hands of Progress and will work out in its own sweet way its own destiny if we poor human beings will only keep hands off. Readjustment is a law unto itself. It is one of the steadiest working laws we will ever have. It operates from

Stopped Cough After Influenza

"I want to say that Foley's Honey and Tar is the best cough medicine I ever tried," writes E. B. McDowell, R. F. D. 1, Box 119, Arlington, Tenn. "My son had influenza. He had the worst kind of a cough and I tried everything, but nothing did any good. God sent me a friend with Foley's Honey and Tar, and his cough was better the next day and in two days he had no cough at all." Dear Editor:

Your article in Thursday's Daily Republican, regarding the trouble between the Wills boy and myself. I want to rectify the mistake made in that article to let the readers of the Republican know that part of the article was a mistake. I am a school coach driver and have been for the period of two terms and that was the first trouble that I have ever had. I never did have any trouble with the little Wills boy and never did call them any insulting names.

On Thursday, Feb. 20 I was driving towards the school house with 18 children in the wagon. All were peaceable and when we came to within a mile of the school house, I met John and Roy Wills. Roy grabbed the horse by the bit and they stopped. I asked them what they meant and they said that I was mistreating their little brothers, and I was not, for I treated them as well as any others. They said they were going to have trouble and John Wills came around the right side of the wagon to the window which was open and struck at me three or four times. I tried to stop them on account of the children and I did not have anything on me to protect myself with. The children commenced to scream and cry and get out of the wagon and as far as beating up on me, they didn't do it. I never got a scratch on me. They will not have to pay a fine if they stay out of the wagon and leave me alone.

BILL IS SUFFICIENT FOR WOMEN'S VOTE

Attorney General Stansbury Gives This Opinion to President of Woman's Franchise League

WILL VOTE BY BALLOT BOXES

(By United Press.)

Indianapolis, Ind., March 6.—The presidential suffrage bill passed by the present session of the Legislature makes sufficient provision to take care of the women's votes, in the opinion of Attorney General Eli Stansbury.

In an opinion which he has given to Mrs. Richard Edwards, president of the Woman's Franchise League, Stansbury says:

"After having carefully considered house bill No. 65 in connection with our general statutory provisions relating to the use of ballot boxes and machines for voting. I am of the opinion that a proper construction of Section 2 of said bill would require that provision be made for women to vote by the use of ballot boxes and ballots the old fashioned way, even where machines have been provided under the law.

"As the law now requires that booths and ballots be provided for use in event machines break down or become out of repair, there would appear to be the minimum of extra expense entailed by using the ballot box system for women to vote, as I believe this measure contemplates. I really feel that as there are no machines mentioned in this act it is pretty clear that the method in contemplation was that of the ballot box system."

The World's Tractor

This one man single unit two wheeled Tractor weighs 1700 pounds and in ten hours will plow four acres. Disc twenty acres with a seven-foot tandem disc. Harrows forty-five to fifty acres with a 15-foot harrow. Plant twenty to twenty-five acres of corn, cultivate 20 acres with a two-row cultivator.

Harvest ten acres with a corn binder. Cut twenty acres of wheat with an eight-foot binder. Mow fifteen acres with five-foot mower rake or pull a hay loader; and in addition can be used for belt work not requiring to exceed ten to twelve horse power.

This Tractor has been in use for four years and is not an experiment. It is superior in every detail of construction.

When the Indiana Silo Company went into the Tractor business four years ago, they found the trouble with Tractors was that they were always laid up for repairs. They have solved that part; they have so constructed it so as to reduce repair bill to a minimum and is so simple any boy can operate.

Tractor will be in Rushville, Saturday, February 15th, and will be more than pleased to demonstrate it as soon as weather permits.

PRIV. OWNED NORMAL ROYAL WELSH CONCERT SCHOOLS MAY BE AIDED AT CHRISTIAN CHURCH

Mendenhall Bill Appropriating \$60,000 Passes House and Similar Action Expected in Senate.

IT TRAVELS A ROUGH ROAD

(By United Press.)

Indianapolis, Ind., Mar. 6—Aid for private owned normal schools will probably be granted by the present session of the legislature. The Mendenhall bill appropriating \$60,000 for this purpose has passed the house and will probably receive favorable action in the senate.

The private schools have been traveling a rough road during the war years, according to their owners and would be forced to close up unless state aid is given. Beside increases in salaries and prices, the competition of state schools has about driven them out of business.

Those backing the measure believe that it will be good economy in the end to aid the schools now. They point out that if the schools are not aided and are forced to close, it will cost the state a large additional sum to provide more facilities for training students.

Under the provisions of the bill the money appropriated will be divided among the schools on the basis of the number of twelve week normal course students enrolled, \$25 to be allowed for each student and no school to receive more than \$15,000.

One of the Features of the Recital Will be The Story of Sinking of The Lusitania

BY ONE OF THE SURVIVORS

The Royal Welsh Concert company will be heard tonight in a concert at the Main Street Christian church, a feature of which will be the story of the sinking of the Lusitania, by Rince Williams, a member of the company who was one of the few survivors. The story is told in a manner that anyone can understand, as he was one of nine Welsh singers who were passengers.

Mr. Williams describes the fatal trip from the day they sailed to the time the liner was torpedoed and sent to the bottom. He tells of the scenes of panic on the ship when it began to sink, of the commotion, of men and women swamping the life-boats and leaping into the sea and of his own experiences when clinging to a bit of wreckage after jumping over board. He was drawn far beneath the water from the suction made by the sinking ship. He managed later to get aboard a lifeboat on which he found two of the company to which he belonged and they passed the weary hours of waiting by singing hymns while all about them floated the debris from the ship and members of the crew who were drowned.

The story of the sinking of the Lusitania is familiar to most people but the manner in which Mr. Williams tells it adds much to the interest. Tickets have been on sale all week and the concert promises to be well attended.

EDWARDS THE POWER BEHIND THE THRONE

Duty to Analyze all Measures Passed by Legislature and Sent to Governor For Approval.

JOKERS AND RIDERS WATCHED.

(By United Press.) Indianapolis, Ind., March 6.—One of the most influential persons in Indiana during the biennial session of the General Assembly, now drawing to a close, is little known and seldom heard of beyond the confines of the office of Gov. Goodrich.

John Edwards of Bedford is the power behind the throne in the state capital building. It is his duty to analyze all measures passed by the legislature which are sent to the governor for his approval. He watches for jokers and riders which may be hidden.

Probably the only measure which escaped his scrutiny was the Bush-McCray bill abolishing the German language from Indiana grade schools. This bill was signed by the governor a few minutes after it had been passed by the house.

Symons Bill Provides for Appropriation of \$2,000 to Buy Strip of Land for Marker.

WRIGHT BOYS TO BE HONORED

(By United Press.) Indianapolis, Ind., Mar. 6—Indiana will pay a tribute to two of its sons under provisions of the Symons bill now before the senate, providing for appropriation of \$2,000 to purchase a little strip of farming land eight miles from Newcastle to Henry county and erection of a marker.

The marker will be placed near the house in which Wilbur and Orville Wright, inventors of the airplane, were born.

Although only a modest marker can be obtained for such an amount, those supporting the measure say that it would be in accordance with the wishes of the Wright family, who lived in a simple, plain manner.

Several members of the present legislature were personally acquainted with the Wright family.

Rest Robes Take On Loud Oriental Unrest

By MARGARET ROHE
(Written for United Press)

Oh our happy little fireside
Never more the same will seem:
Streets of Cairo it resembles
Or a devilish dervish dream.

Sultan's harem has naught on us,
Save in numbers, I should say,
Since Camilla's bought the latest
Oriental negligee.

Beat the tom-tom, burn the incense, make to sing the sweet bulbul.
Then if that is not sufficient at the hookah take a pull. After that in proper spirit, I opine you ought to be, to put on the newest teagowns of barbaric oddity.

They're inspired by early Egypt (Little Egypt, I should say) with a dash of Medes and Persian crossed with Turkey by the way. Also just a vague suspicion of Assyrian design with a soupon of the Moorish and Algerian of line. They are really all evolved from ancient Oriental lore and a yard of two of chiffon highly colored little more.

If you're panting to obtain one you will pant some when you do, for they mostly all have trousers, loose of cut and gay of hue. Really such wild combinations as to color, you'll agree, ne'er before in Occidental climates flourished hectically. Orange, purple, green and scarlet sound a quiet tonal note. Surely Joseph's famous garment was a sorry little coat when compared to all this riot in a single negligee of exotic serambled colors, worn by females fair today.

O'er the violent colored surface wild designs in wilder hue splash in manner a la Batik—such a costly thing to do. Worn atop the baggy trousers some sport coatees short and sweet. Others show long chiffon mantles flowing round the trousered feet. Some of trousers are quite guiltless, but they make up for the lack with exciting Batik panels hanging down in front and back. And of course with pants or sans then there's a gorgeous color splash knotted round each model's middie, fringed or tasseled—it's a sash.

One with yellow chiffon coatee all designed with Batik art looks just like a mustard plaster as to motif. It is smart. With it blend magna trousers girdled with a sash of blue. I don't think that I could stand it if I had it on, do you?

Quite a lovely emerald model flows o'er trousers midnight blue, and the girdle cloth of silver, shimmers softly gleaming through. Then as if it were too quiet to belong to all this silk, on the breast in vivid scarlet are two dragons done in silk.

Yet another purple model is all

spotted gold and green. This of course is always spotted first of all the others seen.

Neath a robe of figured chiffon, orange and a sort of grey, purple satin trousers dazzle anyone who looks that way. While a flesh toned slip of chiffon worn beneath a robe of black richly figured, blue and coral, shows some figure front and back.

Really such exciting raiment for a rest robe seems amiss, yet no Miss or Mrs. either will forgo or miss, I wiss, if she has the price of purchase which perforce is very steep, quick acquiring for her boudoir one. They're guaranteed to keep wayward husbands home of evenings, for what husband cares to roam, with a Turkish Trousered Trophy, nestling in his happy home?

Dame Fashion is specializing on the tailor-made—so there's little wonder that suits and coats have appeared with so many new and charming styles.

Snug sleeves, trim shoulders and skirts tapered just right give the favored narrow silhouette.

Little touches—especially braid—make the strictly tailored less severe.

Box suits supplant the Eton with a new little swing all their own.

Belted models take on an air with oddly tucked pockets, tuxedo girdles and shawl revers.

Let us show you these Wooltex tailor-mades that are illustrated and many others just as attractive—the last word in Spring styles.

BERLIN WILL KEEP SCARS OF BATTLE

Store Windows are Among Oddest Evidences of Fighting of the Revolution.

MERELY PIERCED BY BULLETS

In One Single Pane of Glass on Jerusalemstrasse There are More Than 300 Holes.

(U. P. Staff Correspondent.)

Berlin, Feb. 1. (By Mail.)—The store windows of Berlin are among the oddest evidences of the fighting of the revolution. Everywhere, where there has been fighting, the window panes have suffered, but Berlin is different.

In towns along the front window panes were no more after the violent bombardment of both armies; in Paris and other cities they were badly crashed in as the result of bombing raids, but Berlin's panes merely have holes in them.

As machinegun bullets flew in every direction, they pierced the windows with sharp round holes less than an inch in diameter, around each of which is a flaky fringe. Coming so fast, they did not crack the glass, especially the thick plate glass windows.

In one single pane on Jerusalemstrasse you can count more than three hundred holes in the plate glass pane of a shoe store. As yet the plate of glass is not cracked, and it is solid but it will not keep out wind or water.

In some blocks scarcely a pane is left without from one to a hundred holes in it, though rarely was a window broken so badly it had to be boarded up. In most cases, the shopkeepers swept out the fragments of glass, and the holes in the windows serve as an additional attraction to prospective customers.

Considering the cost of plate glass windows, and the lack of necessity of replacing plates damaged merely by holes bored in them, it is likely Berlin storekeepers will tolerate and point with pride to their evidences of the revolution for years to come.

Fronts of the modern buildings along the principal streets of fighting also are badly chipped with spattered holes, not very deep, but giving the stone structures a pockmarked appearance. It is practically impossible to remove these pocks, and they

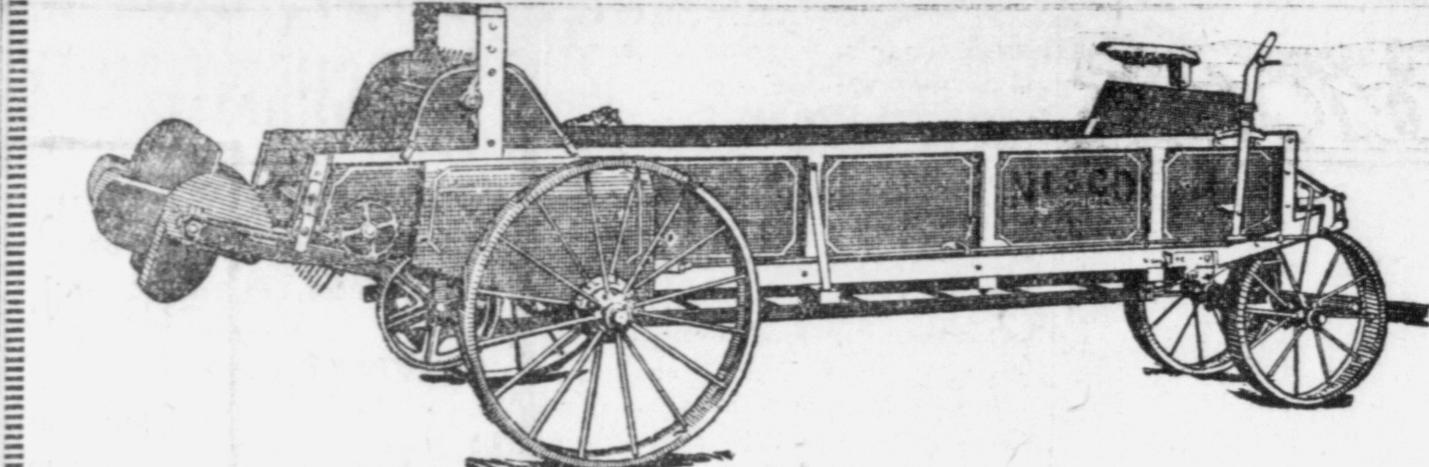

Mrs. Jones Tells How PEPSINCO Helped Her Stomach!

I just suffered everything. Nothing agreed with me at all. A few minutes after eating I had pain, sourness and as a rule would belch bad tasting stuff.

I tried doctors; I tried medicines; all without effect. Pepsinco was recommended. I honestly believe that I can thank Pepsinco for my good health-to-day. I can eat anything and I am without pain. I would suggest that if there is anything wrong with your stomach, that you go to any drug store and get a small package of Pepsinco.

The above is a testimonial from a party who followed the advice of a friend. Suppose you do the same.

Edith Roberts at Mystic

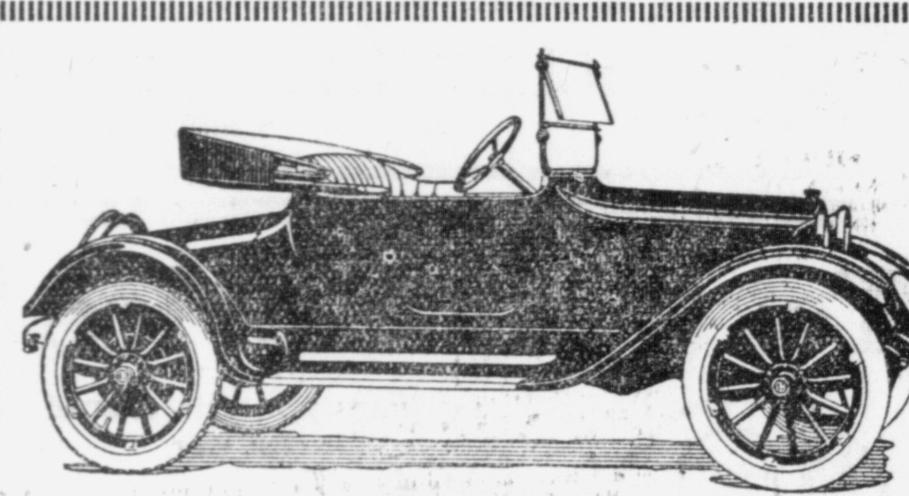

"Set Free," which brings piquant Edith Roberts to the Mystic theatre tonight, the mortal parallel to the nestling who, with the realization of the world outside, yearns to be off, to seek the wide open places, is delineated.

Roma craves romance. In her soul she cherishes the delicate fragrance of the knowledge that her ancestress was a Magyar princess, and when she sees her chance to "take to the road" she leaves her musty home and her antique aunt for the Big City.

In her heart's eye she conceives the dream hero who will rescue her from mundane affairs and like a Lochinvar bear her off to his castle—not an ancient edifice the like of which Roma has left behind her.

But in New York Roma finds herself being proposed to by a youth who has in him the very elements of "practicability" she wishes to be rid of forever. However, the man John Roberts, is wise enough to sense this craving for the romantic and he determines on a "cure."

Fronts of the modern buildings along the principal streets of fighting also are badly chipped with spattered holes, not very deep, but giving the stone structures a pockmarked appearance. It is practically impossible to remove these pocks, and they

DODGE BROTHERS ROADSTER

The roadster has the same stream lines as the touring car. The seat is wide and low and the steering post is set at an angle which gives a comfortable driving position. There is a large spacious compartment at the rear which provides space for extra tires or baggage. The equipment throughout the roadster is the same as on the touring car.

This car is on display now on our show room floor or see it at the automobile show March 20th and 21st.

Janesville
Sulky Plows

JANESVILLE Riding Plows have flexibility in the furrow. The plow bottom oscillates in the frame of the plow with much the same motion found in a walking plow.

The plow bottom hangs over a single bail and you can tell instantly whether you are hitched too high or too low in the clevis, as the result in either case is a rigid running plow.

This flexibility relieves the "pinch" at the plow point as well as along the cutting edge of the share. This reduces draft.

Because of this clean-cut furrow it helps the plow to scour in difficult soils.

The action of the Janesville Plow in the furrow is peculiar unto itself. It is guaranteed to work where any other plow will work under the same conditions, and we have found it has worked when others have failed.

GOING TO CHURCH
NOT CHRISTIANITY

It Does Not Make You Christian
Any More Than Going to Barn
Makes You a Horse

STATEMENT BY EVANGELIST

Never Lived in a Day When There
Were so Many False Teachers,
A. W. Miller Says

The special meetings at the St. Paul's M. E. church under the leadership of Evangelist A. W. Miller, drew another large audience last evening, and those present were loud in their praise of Mr. Miller's ability. The meetings have been in progress but three days but their influence has already been felt over the entire city. The crowds and interest are growing rapidly and unless all signs fail the present campaign will eclipse any effort of the kind here.

The large chorus choir under the capable leadership of the Rev. C. S. Black is a big feature of the work. Mr. Black does not pose as a professional song leader, but his work thus far shows that he is competent. New song books are in use and the crowd joins heartily in singing the new numbers. Solos, duets and special music by the choir make the half hour of song worth much.

Following the rousing song service and a beautiful duet by the Rev. Mr. Black and Mrs. Hogsett, Mr. Miller read his text from Acts 16-31 "Sirs, what must I do to be saved?"

He said in part: "We have never lived in a day when there were so many false teachers abroad in the land as today each with his own peculiar doctrine to palm off on the people, supported by a few verses of scripture picked up from different parts of the bible, and as a result thousands of honest folks are being deceived and led into a lost eternity by those having a form of righteousness but denying the old time power.

"Notice just a few of the prominent ones. License for liberty, Penance for repentance. Imputed righteousness in the place of imparted righteousness. Church work in the place of Christian work. Some of the ordinances and a church membership instead of Christ enthroned in the heart. This is the sort of people that Jesus said, 'Why call me Lord and not do the things I command?'

"We believe in the ordinances and being a member of the church, but you can observe every ordinance the Bible mentions and join every church in town and still die in your sins and step into a lost world. Going to church does not make you a Christian any more than going to the barn makes you a horse. I have seen some folks go around with a face long enough to eat oat meal out of an old fashioned churn, and thought they were religious".

The speaker went on to show the different substitutes for the old fashion God-given, heaven-sent, experimental salvation received by a living faith in Jesus Christ. He made it strikingly clear that it is not intellectual consent of the mind, but with the heart a man believes, and then with the mouth he makes confession of that faith.

Mr. Miller knows how to mingle humor with pathos. The crowd

laughed and cried by turns. He closed with a touching description of his conversion from infidelity 21 years ago. He has a peculiar and abrupt way of closing his meeting. He will be going at full speed, when just in the middle of a sentence he will stop suddenly and say "That's all, good night", and before the astonished audience knows what has happened, he will put on his coat and start for his room. This method of procedure is a trifle shocking to some of the ultra conservatives but in the whole it is quite refreshing and amusing.

Tonight the evangelist will lecture on the topic, "Hypocrites Properly Skinned," and he promises the price of hides will go down after tonight.

USE EFFORTS TO
SPEED UP SENATE

Continued on Page Eight
was tabled by a vote of 26 ayes and 16 noes at the close of a tempestuous session of the Senate last night.

This vote is taken as an indication of the strength of the friends of the tax bill. Twenty Republicans and six Democrats voted to table the amendment, while eleven Republicans and five Democrats favored the amendment. Nine senators were absent or did not vote, of this number four were Republican and five Democrats. Lieutenant Governor Bush, Republican, voted in favor of the amendment.

Senator McCray who with Lieutenant Governor Bush, is leading opposition to the bill while it is under consideration in the Senate, which is sitting as a committee of the whole, declared after the night session that the vote on the Nejd amendment could be accepted as definite indication of the probability that the bill would be passed.

He said the opposition apparently could not muster the strength to defeat the bill. Supporters of the bill are counting on at least three Democratic votes, those of Senators Bracken, Cravens and Van Auken.

If the bill goes through it is expected that it will carry amendments exempting omitted property upon taxes were not collected prior to Jan. 1, 1919. It is believed also, in the light of the first trial of strength, that the provision of the amendments relating to supervision of the state board over local levies and bonds, issues will be included. The Wolfson standard of valuations was adopted yesterday.

The test vote last night came at the conclusion of one of the most strenuous sessions of the Senate. Twice Senators English and Mc-

Cravy clashed over senatorial privileges and Senator English and Neddy showered heated verbal charges across the floor of the Senate.

Opponents of the bill broke out in denunciation of the provisions of the bill. Senator McCray characterized the board of tax commissioners as a "Board of Arbitration" heeding the call of the Governor.

Lieutenant Governor Bush on the floor of the Senate declared the measure was undemocratic and an attempt to interfere with the rights of the people to conduct their local government.

Corns Peel Off Painlessly

There's Only One Genuine Corn-
Peeler — That's "Gets-It."

There's only one happy way to
get rid of any corn or callus and
that's the painless-peel-off way.
"Gets-It" is the only corn remedy in

"3 drops of 'Gets-It'—Corn is doomed." The world that does it that way—effectively, thoroughly. Why get down on the floor, tie yourself up into a knot, and have to fool with "packaged" and greasy ointments that rub off, sticky, taste, digging knives and scissors, when you can peel off your corn or callus in one complete piece, peacefully and surely, with magic, simple, easy "Gets-It." It takes 2 or 3 seconds to apply "Gets-It"; you use 2 or 3 drops, and that's all. "Gets-It" does the rest! Get rid of that corn-pain at once, so that you can work and play without corn torture. Be sure to use "Gets-It." It never fails.

GERMANS DO NOT CREDIT OWN LIES

Pay Tribute to the Effectiveness of Allied Propaganda Which Makes Them Seem Wrong.

GERMANS PROPAGANDISTS

Every German Feels He Must Keep People From Believing Germany Started the War.

(By United Press.)

Berlin, Feb. 4. (By Mail)—German tribute to the effectiveness of allied propaganda is obtained in the remark of an official in the foreign office to the United Press correspondent. "You folks have been so clever in your propaganda that Germans themselves are beginning to think they are always wrong in their views. It is convincing them of the direct opposite of what they believe."

The Germans have always thought they had an effective and winning system of propaganda. Formerly it was effective, especially among Germans, though it seemed clumsy to others. Every German is a propagandist for something, and he expects everyone else to be the same.

A German usually does not believe his own propaganda too strongly, but he expects to convince others of it.

The biggest propaganda point probably in Germany is the question of who is responsible for the war. Every German feels that Germany did start the war. It is one of the arguments sure to come, if you converse with a German long.

The people in Germany who believe that Germans and especially the military class deliberately instigated the war is constantly growing. Germans in general believe this is due to allied propaganda which they blame for other new views that gain ground. They are amazed at the strength of this so-called propaganda.

One thing the Germans never will realize is that the truth is the basic features of allied propaganda, and it its principal source of strength. The reverse was true of German propaganda, generally speaking.

FIDUCIARY RETURN REQUIRED BY LAW

Persons or Corporations Holding in Trust Estate of Another Person Affected.

WHERE INCOME EQUALS \$1,000

Fiduciaries Subject to all Provisions of Income Tax Which Apply to Individuals.

Fiduciary returns are required of persons or cooperations holding in trust the estate of another person, the net income of which equals or exceeds \$1,000 or \$2,000 according to the marital status of the beneficiary.

Fiduciaries are subject to all the provisions of the law which apply to individuals who are required to make return of income, and must state under oath that they have sufficient knowledge of the affairs of the persons for whom they act to enable them to make such returns. A return filed by one of two or more fiduciaries in the office of the Collector of Internal Revenue in which the fiduciary resides is sufficient to meet the requirements of the law.

The duly appointed guardian of a minor, or the conservator of the estate of an incompetent person, is required to render a personal return in behalf of his ward under the same conditions as would the ward, if competent to act for himself. In doing so the personal exemption to which the ward is entitled may be claimed.

Trustees having charge of an estate the net income of which is regularly distributed among the beneficiaries, are required to make a return if any of the beneficiaries is single and his net income from the estate equals or exceeds \$1,000, or if all of the beneficiaries are married and the net income of any one equals or exceeds \$2,000.

Partnerships as such are not subject to the income tax, each partner being liable to the tax in his individual capacity. A partnership however, is required to make a return for the taxable year, stating specifically the items of its gross income and the deductions allowed. Each partner must include in his individual return his distributive share of the partnership's net income whether or not it has been actually paid. Where the result of partnership operation is net loss, such loss is divisible, and may be deducted by the individual partners in their return of income. A partnership return should be computed on the same basis and in the same manner as an individual return.

ONLY 8 HUNS SUCCEED GETTING INTO PARIS

Latest Arrival Is a Wealthy Individual Who Just Casually Came Over From Hanover.

ONE WOMAN AMONG NUMBER

(By United Press.) Paris, Feb. 10. (By Mail).—When a German shows up in Paris, it's a sensation. So far only eight have succeeded in reaching the French capital, and all have been quickly rounded up by the police. The latest arrival was a wealthy individual who just casually came over from Hanover. He registered at one of the best hotels, and kept the police busy for hours trying to find out how he got here.

Immediately after the signing of the armistice conditions on the old fighting fronts were in a very fluid state. Getting into France from

Germany or into Germany from France was an easy matter. Seven Germans, including a woman, crossed the frontier at this time and reached Paris. They came by train with returning soldiers and civilians. All immediately were arrested, and explained that they lived in Paris before the war and thought that the signing of the armistice permitted their return.

IT'S NOT YOUR HEART; IT'S YOUR KIDNEYS

Kidney disease is no respecter of persons. A majority of the ills afflicting people today can be traced back to the kidney trouble.

The kidneys are the most important organs of the body. They are the filters of your blood. If the poisons which are swept from the tissues by the blood are not eliminated through the kidneys, disease of one form or another will claim you as a victim.

Kidney disease is usually indicated by weariness, sleeplessness, nervousness, despondency, backache, stomach trouble, pain in loins and lower abdomen, gall stones, gravel, rheumatism, sciatica and lumbago.

All these derangements are nature's

signals that the kidneys need help. You should use GOLD MEDAL Haarlem Oil Capsules immediately. The soothing, healing oil stimulates the kidneys, relieves inflammation and destroys the germs which have caused it. Go to your druggist today and get a box of GOLD MEDAL Haarlem Oil Capsules. In twenty-four hours you should feel health and vigor returning.

After you feel somewhat improved continue to take one or two capsules each day, so as to keep the first-class condition and ward off the danger of other attacks.

Ask for the original imported GOLD MEDAL brand. Three sizes. Money refunded if they do not help you.

RED CROSS GIFTS \$400,000,000

War Council on Retirement Announces Cash and Supplies Contributed.

WORKERS WILL "CARRY ON."

Five Big Societies in World Wide Plan. H. P. Davison Heads International American Red Cross Commission. Dr. Livingston Farrand Permanent Leader of Peace Organization.

Washington.—(Special)—Henry P. Davison as chairman issues the following statement on behalf of the War Council of the American Red Cross:

"To the American People:

"The War Council of the American Red Cross appointed by President Wilson on May 10, 1917, to carry on the work of the American Red Cross during the war, at their request and by vote of the Central Committee, ceased at midnight, February 28.

"Immediately the armistice was signed the War Council instituted studies to determine when the strictly war work of the organization would have been sufficiently matured to enable the direction of affairs to be resumed by the permanent staff. Henry P. Davison, being in Paris when the armistice was signed, summoned a conference there of the heads of all the Red Cross Commissions in Europe to canvass the situation. After considering all the factors it was concluded to make the transition on March 1. The very fortunate choice of Dr. Livingston Farrand as the new chairman of the Central Committee, and thereby the permanent chief executive of the Red Cross, makes possible the consummation of this plan under the most favorable conditions.

Accounts Audited by War Department.

"Detailed reports to Congress and a complete audit of its accounts by the War Department will constitute the final record of Red Cross activity during the war. Although it has been the rule to make public all expenditures when authorized and to give detailed information relative to all work undertaken, the War Council in turning over its responsibilities to Dr. Farrand and his associates desire to give a brief resume of Red Cross war time activities to the American people, to whom the Red Cross belong, and whose generous contributions have made possible all that has been accomplished.

"During the past nearly twenty-one months the American people have given in cash and supplies to the American Red Cross more than \$400,000,000. No value can be placed upon the contributions of service which have been given without stint and oftentimes at great sacrifice by millions of our people.

"The effort of the American Red Cross in this war has constituted by far the largest voluntary gifts of money, of hand and heart, ever contributed purely for the relief of human suffering. Through the Red Cross

"The Red Cross endeavor in France has naturally been upon an exceptionally large scale where service has been rendered to the American Army and to the French Army and the French people as well, the latter particularly during the trying period when the Allied World was waiting for the American Army to arise in force and power. Hospital emergency service for our army in France has greatly diminished, but the Red Cross is still being called upon for service upon a large scale in the great base hospitals, where thousands of American sick and wounded are still receiving attention. At these hospitals the Red Cross supplies huts and facilities for the amusement and recreation of the men as they become convalescent. Our Army of Occupation in Germany was followed with Medical units prepared to render the same emergency aid and supply service which was the primary business of the Red Cross during hostilities. The Army Canteen service along the lines of travel has actually increased since the armistice.

"As for work among the French people, now that hostilities have ceased, the French themselves naturally prefer as far as possible to provide for their own. It has accordingly been determined that the guiding principle of Red Cross policy in France henceforth shall be to have punctilious regard to its every responsibility, but to direct its efforts primarily to assisting French relief societies. The liberated and devastated regions of France have been divided by the government into small districts, each officially assigned to a designated French relief organization.

"The American Red Cross work in France was initiated by a commission of eighteen men who landed on French shores June 13, 1917. Since then some 9,000 persons have been upon the rolls in France, of whom 7,000 were actively engaged when the armistice was signed. An indication of the present scale of the work will be obtained from the fact that the services of 6,000 persons are still required.

"Our American Expeditionary Force having largely evacuated England, the activities of the Red Cross Commission there are naturally upon a diminishing scale period. Active operations are still in progress in Archangel and Siberia.

"The work in Italy has been almost entirely on behalf of the civilian population of that country. In the critical hours of Italy's struggle the American people, through their Red Cross, sent a practical message of sympathy and relief, for which the government and people of Italy have never ceased to express their gratitude.

Supplies and Personnel to Near East.

"The occasion for such concentration of effort in Italy, England, Belgium and even in France having naturally and normally diminished, it has been possible to divert supplies and personnel in large measure to the aid

ahead of us the Red Cross will require the ablest possible leadership, and must enjoy the continued support, sympathy, and participation in its work of the whole American people. It is particularly fortunate that such a man as Dr. Livingston Farrand should have been selected as the permanent head of the organization. The unstinted fashion in which all our people gave of themselves throughout the war is the best assurance that our Red Cross will continue to receive that co-operation which will make its work a source of pride and inspiration to every American.

Mr. Davison, as chairman of the International Commission of the American Red Cross, has undertaken to represent the American Red Cross in the preparation of the program for extended Red Cross activities, and will spend the next several months in Europe in consultation with other Red Cross societies for that purpose.

WOMEN ARE BOOSTING IT YOU CAN'T FOOL THEM

Once you have shown them and got their confidence they will stick through thick and thin to what they know and believe is a good thing.

Hundreds of women in our city are going around today with joy in their hearts and a new lease on life and health where before each day was one long "nervous drag of misery".

As one woman expressed it, "It's not that what you do, it's the way you feel that makes the drudgery you can't get ahead of her get to bed all night, too tired to sleep and get up in the morning half dead. Believe me I know. I certainly was a nervous wreck, every pale, and old woman before my time. Look at me now. Work is a pleasure. I am just bubbling over with good spirits, the picture of health, cheeks red and full of the color that only ironized blood can give, while my phosphated-flesh nerves are as steady as a clock, nothing worries me. I sleep like a top and feel like a girl of sixteen. Take it from me, I want Phosphated Iron to get all of the credit, too much cannot be said in its praise, and all my friends are boosting it".

There is a need of many men and women going around with tired all-in feeling or any form of nervousness, if they take a brace and stock up to a package of Phosphated Iron. It will sure spruce you up and make you feel like a well wire once more, so get busy.

Special Notice: To insure doctors and their patients getting the Genuine Phosphated Iron we have put in capsules only, so do not allow dealers to sell you pills or tablets.

Asserts Rheumatic Impurities Can't Stay in Body

When My Prescription Goes in, Rheumatism Goes Out Along With All Poisonous Uric Acid, Says Discoverer.

James H. Allen

Because he was crippled with terrible rheumatism and unable to work, and because doctors failed to help him, Mr. James H. Allen of Rochester decided to help himself.

Persistent study, ceaseless patience and frequent experiments convinced him that before anyone could be free from rheumatism the poisons and impurities often called uric acid deposits, must be dissolved in the joints, ligaments and muscles and expelled from the system.

It took some years to get this idea into the form of a prescription, but perseverance finally conquered and in a very short period every pain and twinge and trace of rheumatism was forced to flee and Mr. Allen turned himself from a rheumatic wreck into a strong, healthy, robust man.

So pleased was he with his success that he named this wonderful medicine Allenru. Many others cursed with the agony of rheumatism tried it with results that were almost magical.

Requests for Allenru became so numerous that a decision was reached to let sufferers know of the discovery through the newspapers and now druggists throughout the country dispense the Allenru prescription or can get it for you on short notice.—(Adv.)

REGULATIONS ON BONUS PAYMENT

SAMUEL BLACKBURN IS DEAD Former Rushville Man Expires Suddenly at Mooreland

Set Forth Papers Discharged Soldier, Sailor or Marine Shall Send to Washington

TO COLLECT \$60 DUE THEM

Regulations Received by Local Army Board Today, Also Define Classes Entitled to Bonus

Regulations governing the payment of the \$60 bonus, provided for in the revenue act passed February 24, to soldiers, sailors, marines and nurses, who are now or have been in the government service, were received today by the county army selection board. They were sent by Major Robert C. Baltzell, state conscription officer, who received them from the director of finance of the war department. Many inquiries have been received by the local board regarding methods to follow to get the bonus.

The regulations disclose that no blank forms are necessary for the discharged soldier, sailor, marine or nurse to make application for his or her bonus. They do have to make application in a formal way, however, and all such applications shall be sent to the Zone Finance Officer, Lemon building, Washington, D. C., who is designated to settle the claims.

Such applications shall contain the discharge certificate, or order for discharge or relief, if no certificate was issued, but both certificate and order if both were issued, the paper bearing indorsement of final payment being required; a statement of all military service since April 6, 1917, showing place and date of reporting at first military station, and address to which check is to be sent.

When the bonus is paid, the regulations state, all papers will be sent to the applicant with his or her check. No further correspondence will be necessary except to advise the finance office of a change in the address of the applicant.

The regulations define who is entitled to the bonus, as "all persons serving in the military or naval forces of the United States during the present war who have since April 6, 1917, resigned or been discharged under honorable conditions, or who at any time hereafter (but not later than the termination of the current enlistment or term of service) in the case of the enlisted personnel and female nurses, or within one year after the termination of the present war in the case of officers, may resign or be discharged under honorable conditions."

The regulations further provide that the bonus shall not be paid to the following classes of persons: Any who though appointed or inducted into the military or naval on or prior to November 11, 1918, had not reported for duty at his station on or prior to such date; any person who has already received one month's pay under the provisions of section 9 of the act entitled, "An act to authorize the president to increase temporarily the military establishment of the United States," approved May 18, 1917; or to any person who is entitled to retired pay; or to the heirs or legal representatives of any person entitled to any payment under this section who has died or may die before receiving such payment.

It is further provided that in the case of any person who subsequent to separation from the service has been appointed or inducted into the military or naval forces of the United States and has been or is again separated from the service, only one payment of \$60 shall be made. Persons still in the service get their bonus upon being discharged.

J. J. Keene and C. M. Barnes, Income Tax Men, Instructed to Remain Until Saturday Night

TAXPAYERS WAIT THEIR TURN

Statement Today From Internal Revenue Collector Defines Term
"Head of a Family"

J. J. Keene and C. M. Barnes, deputy internal revenue collectors who have been at the sheriff's office in the court house since Monday morning helping taxpayers fill out their income tax blanks, received a telegram this morning extending their stay here from tonight until Saturday night. Their first instructions were to remain until Thursday night, and the way taxpayers have been keeping them busy indicates that the extension will be of great benefit.

The collectors have been occupied every minute of the time since they have been in Rushville. On arriving at the office in the morning, they find several men waiting for information regarding the income tax law and all day long taxpayers sit outside the office awaiting their turns for consultation with the collectors.

The office is open from 8 a. m. to 9 p. m.

A statement issued today by Collector of Internal Revenue Krueyer defines the exact meaning of the designation "head of a family," such person being allowed the \$2,000 exemption granted a married person in the filing of an income tax return.

"A head of a family," said Collector Krueyer, "is a person who actually supports in one household one or more persons closely connected with him by blood relationship, relationship by marriage or by adoption. Whether in the absence of continuous residence with his dependents a person is the head of a family depends upon the character of the separation."

"If the benefactor is absent on business or on account of military or naval service, or a child or other dependent is absent temporarily at school or on a visit, the common home being maintained, the exemption of \$2,000 applies. If, however, the dependent continuously makes his home elsewhere, the benefactor, irrespective of the question of support, is not the head of a family."

"In the case of man and wife, the joint exemption of \$2,000 allowed a married couple replaces the individual exemption allowed each only if they live together. Unavoidable absence of a wife or husband at a sanatorium or asylum on account of illness does not preclude claiming the exemption. If, however, the husband continuously and voluntarily makes his home at one place and the wife at another, each must file an individual return of net income of \$1,000 or more, and each is assessed on the amount of net income in excess of \$1,000."

RECEIVES WORD OF EASTHAVEN FIRE

J. L. Cowing, Trustee, Informed Question of Rebuilding Will be Taken up at Meeting Sunday

PHONE CALL FROM DR. SMITH

J. L. Cowing, trustee of the eastern Indiana insane hospital near Richmond, received word this morning from the superintendent, Dr. S. E. Smith, by telephone, of the fire last night which resulted in the destruction of the men's hospital building and the death of John H. Lehman, a patient formerly a Muncie man who was taken to the institution last fall for treatment.

Dr. Smith told Mr. Cowing that a special meeting of the board of trustees of Easthaven would not be called to deal with the situation because the regular meeting will be held next Monday and the subject of rebuilding the hospital will then be considered. Mr. Cowing said that the legislature would be asked for an appropriation because the loss amounted to \$25,000 and the institution has no funds with which to rebuild. The state does not carry insurance on its buildings, Mr. Cowing says.

Supt. Smith informed Mr. Cowing that the patient who escaped after the fire last night, was caught this morning on the national road not far from Richmond. The origin of the fire is a mystery. The men's hospital, which was built about 18 years ago, and the infirmary, were connected by a kitchen and dining room for the use of the patients, but the infirmary was saved through the timely work of the Richmond fire department.

WOMAN IS ADMITTED TO PRACTICE OF LAW

Miss Anna Bohannon, Clerk in A. L. Gary's Office, Acts in True Masculine Fashion

SETS 'EM UP' TO CIGARS

Miss Anna Bohannon, who resigned as book-keeper at the Rushville National bank March 1 and accepted a position as a clerk in A. L. Gary's law office, was admitted to the Rush county bar, to practice law here, in the circuit court this morning. Miss Bohannon acted in true masculine fashion and promptly "set 'em up." She left two boxes of good cigars in custody of Luther B. Downey, court bailiff, with the request that they be passed out to her friends when they came into the court room.

Miss Bohannon was said today to be the first woman ever admitted to the practice of law in Rush county. She has had long experience in business here having served as deputy county auditor for twelve years before becoming associated with the Rushville bank about ten years ago.

LURKING HOPE FOR SESSION

Some Congressmen Believe President May Call Congress Soon

Washington, Mar. 6.—There is a lurking hope among some members of congress still in Washington, that an extra session may yet be called before the president's return, they said today.

This proposal is based on the frantic statement of railway men left in the lurch by the senate's failure to provide funds badly needed by the railway administration, which they think will be the strongest pressure brought to bear upon the president from this source to get congress back at work. It is believed unlikely by democrats that the president will not call an extra session before May.

Socialist Delegation Returns From Weimar With Consent of Government to Form Party

Many Workers Refuse to Join General Strike, Which was Proclaimed as Revolution

(By United Press.) Copenhagen, Mar. 6.—A large socialist delegation has returned from Weimar with the consent of the German government that the workmen and soldiers council shall form an organic party, it was reported in dispatches received from Berlin today.

Hope was expressed that this would satisfy the rebels who are now promising workers that Russian grain would be shipped into the country if a German-Soviet republic is established.

The collectors have been occupied every minute of the time since they have been in Rushville. USE EFFORTS TO SPEED UP SENATE

Administration Leaders, Facing Possible Special Session, Meet With Protests

"STEAM ROLLER" IS THE CRY

Tax Bill Still Before Senate as Committee of the Whole, With Important Measures Pending

(By United Press.)

Indianapolis, Ind., Mar. 6.—Facing the possibility that a special session of the legislature may have to be called to pass the necessary appropriation bills, administration leaders in the senate today used every possible method to speed up action.

Their efforts met with protests from democrats and the republican faction led by Lieut. Gov. Bush, who stated that "steam roller" methods were being used. The fight resulting was the bitterest seen on the senate floor in years.

When the senate opened, the tax bill was still before the senate as a committee of the whole and prospects were that consideration of it would not be completed before adjournment time Monday night, unless stringent methods were adopted.

Senator Beardsley introduced a motion to limit all speeches to three minutes and that no senator could yield his time to another. Besides the tax bill, he said, the senate had to consider the two appropriation bills, the conservation, banking department, workmen compensation, and the child labor measures, if a special session is to be avoided.

Out of nearly 1,000 bills introduced in both houses, only 40 have been made laws so far. Senators McKinley and Kiper, in seconding the Beardsley motion, declared that the rule was necessary to prevent a filibuster which was evidently being conducted by opponents of the measure tried to speak on the rule but Senator Negley, republican floor leader, who was in the chair, refused to recognize them. Elsner declared that he did not know we had "a Kaiser in Indiana." He appealed for a further ruling of the chair and demanded a roll call vote.

Negley refused to call the roll and asked for ayes and noes. After the vote he declared that the chair had been upheld although democrats and some republicans declared it had not.

Senator Smith, republican, protested against such a "German ruling." Negley called for a vote on the Beardsley motion, again refusing a demand that the roll be called and announced that the motion had carried, although again there were many claims from British followers and democrats that it had not.

Consideration of the tax bill was then continued and under the rule it was regarded probable that it would be ready for a vote tonight.

The following amendments were adopted: raising salaries of all assessors; providing that all real property shall be assessed at value; providing for assessment of real estate oftener than every four years; allowing county assessors who are discharged to appeal to the circuit court; preventing hire of tax collectors by county commissioners; allowing state secretary and auditor to work with the governor in appointing members of the board; raising salaries of members of the state board of tax commissioners to \$6,000 yearly and allowing the board to fix the tax levy for the next two years only.

The Nedil amendment to the administration taxation measure, which would have stricken out the power of the state board of tax commissioners to remove a town assessor or deputy assessor from office upon charges of incompetency and appoint a successor.

DOGS STRAIN LEASHES TO GET AT THE WOLF

Fox and Wolf Hounds From Far and Near Eager to be Off When Their Prey is Set Free

A REAL TIMBER WOLF, TOO

At two o'clock this afternoon scores of wolf and fox hounds were straining at their leashes and eager to be after their prey. A large grey timber wolf was the cause of all the watering mouths of the dogs. The wolf has been on display at the Carr garage all day. Dogs—two, three and four-legged ones, eager for a bite of a fat wolf ham and it taxed the owners' strength to keep them away from Mr. Wolf.

The wolf was brought from the west by Owen L. Carr when he returned and a real sure-enough wolf hunt was arranged by Oneal Brothers as a preliminary for their spring opening starting today.

Owners of dogs from far and near were summoned and of course they responded; for what can appeal to any sport lover any more than a real live wolf running at full speed and a group of eager dogs on the trail. The wolf was to be turned loose in the river bottom lands in south Main street and given a good start on the dogs.

BLAMES UNITED STATES FOR BOLSHEVIK SPREAD

Raymond Robins Tells Committee Government Did Not Respond to Red Cross Appeal

SENT A MAN, NOT THE MONEY

(By United Press.)

Washington, Mar. 6.—Failure of the United States to reply promptly to an appeal from the American Red Cross mission in Russia for help in the fight against the Bolsheviks gave the Bolsheviks control. Raymond Robins told the senate Bolshevik investigating committee today.

Robins was a member of the Red Cross mission in Russia. He said that Col. William Thompson, commander of the commission, cabled the United States through the Red Cross, asking for \$1,000,000, immediately and \$1,000,000 a month for three months to be used in anti-German and anti-Bolshevik propaganda. "We waited a long time to reply," said Robins, "and when it came it stated that a representative of the committee on public information would be sent to Russia." When this man got there the Bolsheviks had tried to help, the Bolsheviks were untrue.

DEPEND UPON PATRIOTISM

Railroads Must Have Cooperation if
Demands are Meant

(By United Press)

Washington, Mar. 6.—The railroad administration will have to depend upon patriotic cooperation of all financial business interests if the railways and the whole financial corporation is to meet the unexpected situation, director General Hines declared today. Hines made it clear it is the plan of the railroads not to drop any improved plan unless absolutely necessary. An increase in rates is not contemplated, Hines said. So far as present plans have developed, no labor will be laid off and he indicated that any disturbance of the railroad labor would be the last move made.

PRIV. OWNED NORMAL ROYAL WELSH CONCERT
SCHOOLS MAY BE AIDED AT CHRISTIAN CHURCH

Mendenhall Bill Appropriating \$60,000 for House and Similar Action Expected in Senate.

IT TRAVELS A ROUGH ROAD

(By United Press.)

Indianapolis, Ind., Mar. 6.—Aid for private owned normal schools will probably be granted by the present session of the legislature. The Mendenhall bill appropriating \$60,000 for this purpose has passed the house and will probably receive favorable action in the senate.

The private schools have been traveling a rough road during the war years, according to their owners and would be forced to close up unless state aid is given. Beside increases in salaries and prices, the competition of state schools has about driven them out of business. Those backing the measure believe that it will be good economy in the end to aid the schools now. They point out that if the schools are not aided and are forced to close, it will cost the state a large additional sum to provide more facilities for training students.

Under the provisions of the bill the money appropriated will be divided among the schools on the basis of the number of twelve week normal course students enrolled, \$25 to be allowed for each student and no school to receive more than \$15,000.

One of the Features of the Recital
Will be The Story of Sinking
of The Lusitania

BY ONE OF THE SURVIVORS

The Royal Welsh Concert company will be heard tonight in a concert at the Main Street Christian church, a feature of which will be the story of the sinking of the Lusitania, by Riesca Williams, a member of the company who was one of the few survivors. The story is told in a manner that anyone can understand, as he was one of nine Welsh singers who were passengers.

Mr. Williams describes the fatal trip from the day they sailed to the time the liner was torpedoed and sent to the bottom. He tells of the scenes of panic on the ship when it began to sink, of the commotion of men and women swamping the life-boats and leaping into the sea and of his own experiences when clinging to a bit of wreckage after jumping over board. He was drawn far beneath the water from the suction made by the sinking ship. He managed later to get aboard a lifeboat on which he found two of the company to which he belonged and they passed the weary hours of waiting by singing hymns while all about them floated the debris from the ship and members of the crew who were drowned.

The story of the sinking of the Lusitania is familiar to most people but the manner in which Mr. Williams tells it adds much to the interest. Tickets have been on sale all week and the concert promises to be well attended.

EDWARDS THE POWER

Passed by Legislature and Sent

JOKERS AND RIDERS WATCHED.

(By United Press.) Indianapolis, Ind., March 6.—One of the most influential persons in Indiana during the biennial session of the General Assembly, now drawing to a close, is little known and seldom heard of beyond the confines of the office of Gov. Goodrich.

John Edwards of Bedford is the power behind the throne in the state capital building. It is his duty to analyze all measures passed by the legislature which are sent to the governor for his approval. He watches for jokers and riders which may be hidden.

Probably the only measure which escaped his scrutiny was the Bush-McCray bill abolishing the German language from Indiana grade schools. This bill was signed by the governor a few minutes after it had been passed by the house.

Symons Bill Provides for Appropriation of \$2,000 to Buy Strip of Land for Marker.

WRIGHT BOYS TO BE HONORED

(By United Press.) Indianapolis, Ind., Mar. 6.—Indiana will pay a tribute to two of its sons under provisions of the Symons bill now before the senate, providing for appropriation of \$2,000 to purchase a little strip of farming land eight miles from Newcastle to Henry county and erection of a marker.

The marker will be placed near the house in which Wilbur and Orville Wright, inventors of the airplane, were born.

Although only a modest marker can be obtained for such an amount, those supporting the measure say that it would be in accordance with the wishes of the Wright family, who lived in a simple, plain manner.

Several members of the present legislature were personally acquainted with the Wright family.

Rest Robes Take On Loud Oriental Unrest

By MARGARET ROHE
(Written for United Press.)

Oh our happy little fireside
Never more the same will seem;
Streets of Cairo it resembles
Or a devilish dervish dream.
Sultan's harem has naught on us,
Save in numbers, I should say,
Since Camilla's bought the latest
Oriental negligee.

Beat the tom-tom, burn the incense, make to sing the sweet bubul. Then if that is not sufficient at the hookah take a pull. After that in proper spirit, I opine you ought to be to put on the newest teagowns of barbaric oddity.

They're inspired by early Egypt (Little Egypt, I should say) with a dash of Medes and Persian crossed with Turkey by the way. Also just a vague suspicion of Assyrian design with a soupcon of the Moorish and Algerian of line. They are really all evolved from ancient Oriental lore and a yard of two of chiffon highly colored—little more.

If you're panting to obtain one you will pant some when you do, for they mostly all have trousers, loose of cut and gay of line. Really such wild combinations as to color, you'll agree, ne'er before in Occidental climates flourished hectically. Orange, purple, green and scarlet sound a quiet tonal note. Surely Joseph's famous garment was a sorry little coat when compared to all this riot in a single negligee of exotic scrambled colors, worn by females fair today.

O'er the violent colored surface wild designs in wilder hue splash in manner a la Batik—such a costly thing to do. Worn atop the baggy trousers some sport coatees short and sweet. Others show long chiffon mantles flowing round the trousered feet. Some of trousers are quite guiltless, but they make up for the lack with exciting Batik panels hanging down in front and back. And of course with pants or sans then there's a gorgeous color splash knotted round each model's middle, fringed or tasseled—it's a sash.

One with yellow chiffon coatee all designed with Batik art looks just like a mustard plaster as to motif. It is smart. With it blend magneta trousers girded with a sash of blue. I don't think that I could stand it if I had it on, do you?

Quite a lovely emerald model flows o'er trousers midnight blue, and the girdle cloth of silver, shimmers softly gleaming through. Then as if it were too quiet to belong to all this silk, on the breast in vivid scarlet are two dragons done in silk.

Yet another purple model is all

BERLIN WILL KEEP SCARS OF BATTLE

Store Windows are Among Oddest Evidences of Fighting of the Revolution.

MERELY PIERCED BY BULLETS

In One Single Pane of Glass on Jerusalemstrasse There are More Than 300 Holes.

(U. P. Staff Correspondent.)

Berlin, Feb. 1. (By Mail.)—The store windows of Berlin are among the oddest evidences of the fighting of the revolution. Everywhere, where there has been fighting, the window panes have suffered, but Berlin is different.

In towns along the front window panes were no more after the violent bombardment of both armies; in Paris and other cities they were badly crashed in as the result of bombing raids, but Berlin's panes merely have holes in them.

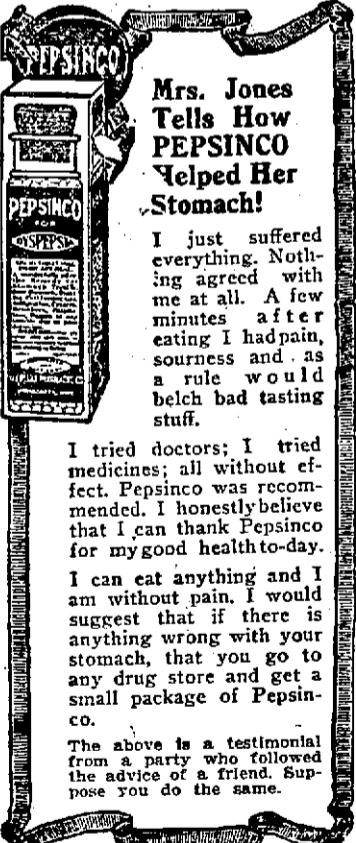

As machinegun bullets flew in every direction, they pierced the windows with sharp round holes less than an inch in diameter, around each of which is a flaky fringe. Coming so fast, they did not crack the glass, especially the thick plate glass windows.

In one single pane on Jerusalemstrasse you can count more than three hundred holes in the plate glass pane of a shoe store. As yet the plate of glass is not cracked, and it is solid but it will not keep out wind or water.

In some blocks scarcely a pane is left without from one to a hundred holes in it, though rarely was a window broken so badly it had to be boarded up. In most cases, the shopkeepers swept out the fragments of glass, and the holes in the windows serve as an additional attraction to prospective customers.

Considering the cost of plate glass windows, and the lack of necessity of replacing plates damaged merely by holes bored in them, it is likely Berlin storekeepers will tolerate and point with pride to their evidences of the revolution for years to come.

Fronts of the modern buildings along the principal streets of fighting also are badly chipped with spattered holes, not very deep, but giving the stone structures a pockmarked appearance. It is practically impossible to remove these pocks, and they

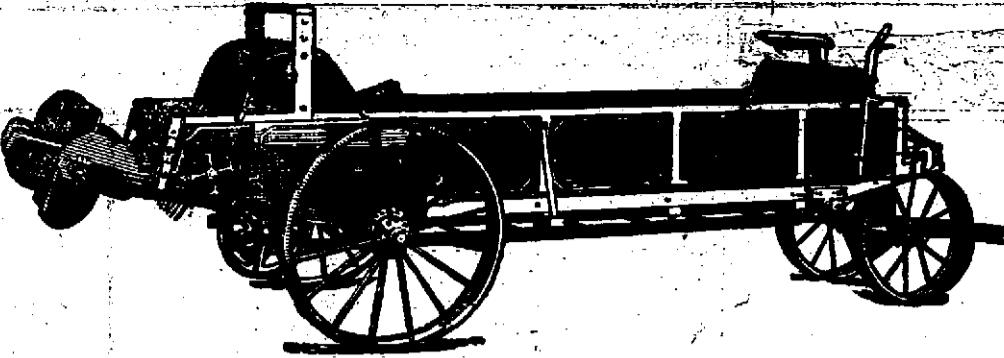

Mrs. Jones Tells How Pepsinco Helped Her Stomach!

I just suffered everything. Nothing agreed with me at all. A few minutes after eating I had pain, sourness and, as a rule would belch bad tasting stuff.

I tried doctors; I tried medicines; all without effect. Pepsinco was recommended. I honestly believe that I can thank Pepsinco for my good health to-day.

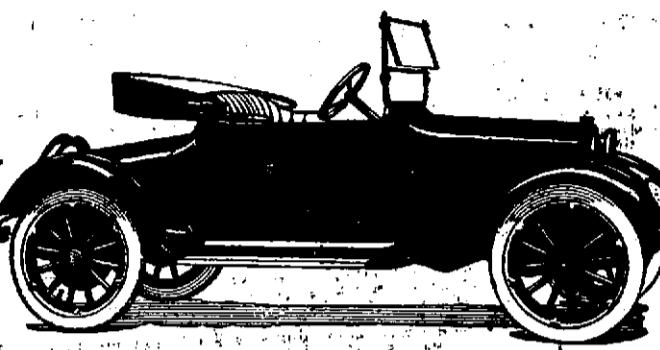

I can eat anything and I am without pain. I would suggest that if there is anything wrong with your stomach, that you go to any drug store and get a small package of Pepsinco.

The above is a testimonial from a party who followed the advice of a friend. Suppose you do the same.

Janesville
Sulky Plows

JANESVILLE Riding Plows have flexibility in the furrow. The plow bottom oscillates in the frame of the plow with much the same motion found in a walking plow.

The plow bottom hangs over a single bail and you can tell instantly whether you are hitched too high or too low in the clevis, as the result in either case is a rigid running plow.

This flexibility relieves the "pinch" at the plow point as well as along the cutting edge of the share. This reduces draft.

Because of this clean-cut furrow it helps the plow to scour in difficult soils.

The action of the Janesville Plow in the furrow is peculiar unto itself. It is guaranteed to work where any other plow will work under the same conditions, and we have found it has worked when others have failed.

Drop in the next time you are in town.

STATEMENT BY EVANGELIST

Never Lived in a Day When There
Were so Many False Teachers,
A. W. Miller Says

The special meetings at the St. Paul's M. E. church under the leadership of Evangelist A. W. Miller, drew another large audience last evening, and those present were loud in their praise of Mr. Miller's ability. The meetings have been in progress but three days but their influence has already been felt over the entire city. The crowds and interest are growing rapidly and unless all signs fail the present campaign will eclipse any effort of the kind here.

The large chorus choir under the capable leadership of the Rev. C. S. Black is a big feature of the work. Mr. Black does not pose as a professional song leader, but his work thus far shows that he is competent. New song books are in use and the crowd joins heartily in singing the new numbers. Solos, duets and special music by the choir make the half hour of song worth much.

Following the rousing song service and a beautiful duet by the Rev. Mr. Black and Mrs. Hogsett, Mr. Miller read his text from Acts 16:31 "Sirs, what must I do to be saved?"

He said in part: "We have never lived in a day when there were so many false teachers abroad in the land as today each with his own peculiar doctrine to palm off on the people, supported by a few verses of scripture picked up from different parts of the bible, and as a result thousands of honest folks are being deceived and led into a lost eternity by those having a form of righteousness but denying the old time power.

"Notice just a few of the prominent ones. License for liberty. Penance for repentance. Imputed righteousness in the place of imparted righteousness. Church work in the place of Christian work. Some of the ordinances and a church membership instead of Christ enthroned in the heart. This is the sort of people that Jesus said, 'Why call me Lord and not do the things I command?'

"We believe in the ordinances and being a member of the church, but you can observe every ordinance the Bible mentions and join every church in town and still die in your sins and step into a lost world. Going to church does not make you a Christian any more than going to the barn makes you a horse. I have seen some folks go around with a face long enough to eat oat meal out of an old fashioned churn, and thought they were religious".

The speaker went on to show us the different substitutes for the old fashion God-given, heaven-sent, experimental salvation received by a living faith in Jesus Christ. He made it strikingly clear that it is not intellectual consent of the mind, but with the heart a man believes and then with the mouth he makes confession of that faith.

Mr. Miller knows how to mingle humor with pathos. The crowd

laughed and cried by turns. He closed with a touching description of his conversion from infidelity 21 years ago. He has a peculiar and abrupt way of closing his meeting. He will be going at full speed, when just in the middle of a sentence he will stop suddenly and say "That's all, good night", and before the astonished audience knows what has happened, he will put on his coat and start for his room. This method of procedure is a trifle shocking to some of the ultra conservatives but in the whole it is quite refreshing and amusing.

Tonight the evangelist will lecture on the topic, "Hypocrites Properly Skinned," and he promises the price of hides will go down after tonight.

was tabled by a vote of 26 ayes and 16 noes at the close of a tempestuous session of the Senate last night. This vote is taken as indicative of the strength of the friends of the tax bill. Twenty Republicans and six Democrats voted to table the amendment, while eleven Republicans and five Democrats favored the amendment. Nine senators were absent or did not vote, of this number four were Republican and five Democrats. Lieutenant Governor Bush, Republican, voted in favor of the amendment.

Senator McCray who with Lieutenant Governor Bush, is leading opposition to the bill while it is under consideration in the Senate, which is sitting as a committee of the whole, declared after the night session that the vote on the Nejdl amendment could be accepted as definite indication of the probability that the bill would be passed. He said the opposition apparently could not muster the strength to defeat the bill. Supporters of the bill are counting on at least three Democratic votes, those of Senators Bracken, Cravens and Van Auken.

If the bill goes through it is expected that it will carry amendments exempting omitted property upon taxes were not collected prior to Jan. 1, 1919. It is believed also, in the light of the first trial of strength, that the provision of the amendments relating to supervision of the state board over local levies and bond issues will be included. The Wilson standard of valuations was adopted yesterday.

The test vote last night came at the conclusion of one of the most strenuous sessions of the Senate. Twice Senators English and Mc-

Cray clashed over senatorial privileges and Senator English and Nedl showered heated verbal charges across the floor of the Senate.

Opponents of the bill broke out in denunciation of the provisions of the bill. Senator McCray characterized the board of tax commissioners as a "Board of Arbitration" heading the call of the Governor.

Lieutenant Governor Bush on the floor of the Senate declared the measure was undemocratic and an attempt to interfere with the rights of the people to conduct their local government.

Corns Peel Off Painlessly

There's Only One Genuine "Corn Peeler" — That's "Gets-It." There's only one happy way to get rid of any corn or callus, and that's the painless-peel-off way. "Gets-It" is the only corn remedy in the world that does it that way — effectively, thoroughly. Why get down on the floor, tie yourself up into a knot, and have to fool with "packagery" plasters, greasy ointments that rub off, sticky tape, and digging knives and scissors, when you can peel off your corn or callus in one complete piece, peacefully and surely, with a magic, simple ease. "Gets-It" takes 2 or 3 seconds to apply. "Gets-It," you use 2 or 3 drops, and that's all. "Gets-It" does the rest! Get rid of that corn-pain at once, so that you can work and play without corn torture. Be sure to use "Gets-It." It never fails. "Gets-It," the guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store. M'd by E. Lawrence & Co., Chicago, Ill.

GERMANS DO NOT CREDIT OWN LIES

Pay Tribute to the Effectiveness of Allied Propaganda Which Makes Them Seem Wrong.

GERMANS PROPAGANDISTS

Every German Feels He Must Keep People From Believing Germany Started the War.

(By United Press.)

Berlin, Feb. 4. (By Mail) — German tribute to the effectiveness of allied propaganda is contained in the remark of an official in the foreign office to the United Press correspondent. "You folks have been so clever in your propaganda that Germans themselves are beginning to think they are always wrong in their views. It is convincing them of the direct opposite of what they believe."

The Germans have always thought they had an effective and winning system of propaganda. Formerly it was effective, especially among Germans, though it seemed clumsy to others. Every German is a propagandist for something, and he expects everyone else to be the same.

A German usually does not believe his own propaganda too strongly, but he expects to convince others of it.

The biggest propaganda point probably in Germany is the question of who is responsible for the war. Every German feels that Germany did start the war. It is one of the arguments sure to come, if you converse with a German long.

The people in Germany who believe that Germans and especially the military class deliberately instigated the war is constantly growing. Germans in general believe this is due to allied propaganda which they blame for other new views that gain ground. They are amazed at the strength of this so-called propaganda.

One thing the Germans never will realize is that the truth is the basic features of allied propaganda, and it its principal source of strength. The reverse was true of German propaganda, generally speaking.

FIDUCIARY RETURN ONLY 8 HUNS SUCCEED REQUIRED BY LAW

Persons or Corporations Holding in Trust Estate of Another Person Affected.

WHERE INCOME EQUALS \$1,000

Fiduciaries Subject to all Provisions of Income Tax Which Apply to Individuals.

Fiduciary returns are required of persons or cooperations holding in trust the estate of another person, the net income of which equals or exceeds \$1,000 or \$2,000 according to the marital status of the beneficiary.

Fiduciaries are subject to all the provisions of the law which apply to individuals who are required to make return of income, and must state under oath that they have sufficient knowledge of the affairs of the persons for whom they act to enable them to make such returns. A return filed by one of two or more fiduciaries in the office of the Collector of Internal Revenue in which the fiduciary resides is sufficient to meet the requirements of the law.

The duly appointed guardian of a minor, or the conservator of the estate of an incompetent person, is required to render a personal return in behalf of his ward under the same conditions as would the ward, if competent to act for himself. In doing so the personal exemption to which the ward is entitled may be claimed.

Trustees having charge of an estate the net income of which is regularly distributed among the beneficiaries, are required to make a return if any of the beneficiaries is single and his net income from the estate equals or exceeds \$1,000, or if all of the beneficiaries are married and the net income of any one equals or exceeds \$2,000.

Partnerships as such are not subject to the income tax, each partner being liable to the tax in his individual capacity. A partnership however, is required to make a return for the taxable year, stating specifically the items of its gross income and the deductions allowed. Each partner must include in his individual return his distributive share of the partnership's net income whether or not it has been actually paid. Where the result of partnership operation is net loss such loss is divisible, and may be deducted by the individual partners in their return of income. A partnership return should be computed on the same basis and in the same manner as an individual return.

GETTING INTO PARIS

Latest Arrival Is a Wealthy Individual Who Just Casually Came Over From Hanover.

ONE WOMAN AMONG NUMBER

(By United Press.) Paris, Feb. 10. (By Mail) — When a German shows up in Paris, it's a sensation. So far only eight have succeeded in reaching the French capital, and all have been quickly rounded up by the police. The latest arrival was a wealthy individual who just casually came over from Hanover. He registered at one of the best hotels, and kept the police busy for hours trying to find out how he got here.

Immediately after the signing of the armistice conditions on the old fighting fronts were in a very fluid state. Getting into France from

Germany or into Germany from France was an easy matter. Seven Germans, including a woman, crossed the frontier at this time and reached Paris. They came by train with returning soldiers and civilians. All immediately were arrested, and explained that they lived in Paris before the war and thought that the signing of the armistice permitted their return.

RECEIVE RECENT WORD FROM SON

Mr. and Mrs. William Pea Hear From Their Son Omer With the Army of Occupation.

IS STATIONED AT COBLENZ

He Served on Four Fronts With Four Other Boys From This County—All Are Well

Mr. and Mrs. William Pea of this city have received recent word from their son Omer, who is with the army of occupation and at the time of writing, January 29, was stationed at Coblenz. He served on four fronts, Soissons, Toul, Verdun and in the Argonne woods. Harry Barrett, Charles and Wilbur Clevenger and Pea were together at the time of writing.

The letter in part is as follows: "After serving on the Soissons front we were sent to the Toul front for rest. While there we just held the line and did not attempt to make any advances. If we had been given orders to go over and take more territory we would have done so believe me. Father that was the front that I went out on to get a souvenir, but the machine gun bullets were so thick that I had to come back. I have a good one for you now, but will not tell you what it is. From the Toul front we went to Verdun. That was our worst battle: shells and machine gun bullets were flying like bees and the airplanes were also dropping bombs and using machine guns."

"At the Argonne woods the Germans got hit their hardest blow. They were laying on the battlefield so thick that one could have walked two miles without stepping off the bodies of a dead German. When the orders came to cease firing the whole battery silenced at once, and when they told us that Germany had asked for an armistice, there was sure a happy bunch. Our ears rang for over a week after, as the guns had been so loud for so long a time. We had been in our gas masks for over twenty-six hours, and as a result we had nothing to eat or drink and you see there was very little sunshine in that part of it for us. Well father we think that we will be home by spring; I am hoping so anyway." In closing the letter Private Pea praises the Red Cross for their part in the war.

IT'S NOT YOUR HEART; IT'S YOUR KIDNEYS

Kidney disease is an destroyer of persons. A majority of the ills afflicting people today can be traced back to the kidney trouble.

The kidneys are the most important organs of the body. They are the filters of your blood. If the poisons which are swept from the tissues by the blood are not eliminated through the kidneys, disease of one form or another will claim you as a victim.

Kidney disease is usually indicated by weariness, sleeplessness, nervousness, debility, pain in loins and lower abdomen, gall stones, gravel, rheumatism, sciatica and lumbago.

All these symptoms are naturally caused by the kidneys.

War Council on Retirement Announces Cash and Supplies Contributed.

WORKERS WILL "CARRY ON."

Five Big Societies in World Wide Plan. H. P. Davison Heads International American Red Cross Commission. Dr. Livingston Farrand Permanent Leader of Peace Organization.

Washington.—(Special)—Henry P. Davison as chairman issues the following statement on behalf of the War Council of the American Red Cross:

"To the American People:

"The War Council of the American Red Cross appointed by President Wilson on May 10, 1917, to carry on the work of the American Red Cross during the war, at their request and by vote of the Central Committee, ceased at midnight, February 28.

"Immediately after the armistice was signed the War Council instituted studies to determine when the strictly war work of the organization would have been sufficiently matured to enable the direction of affairs to be resumed by the permanent staff. Henry P. Davison, being in Paris when the armistice was signed, summoned a conference there of the heads of all the Red Cross Commissions in Europe to canvass the situation. After considering all the factors it was concluded to make the transition on March 1. The very fortunate choice of Dr. Livingston Farrand as the new chairman of the Central Committee, and thereby the permanent chief executive of the Red Cross, makes possible the consummation of this plan under the most favorable conditions.

Accounts Audited by War Department.

"Detailed reports to Congress and a complete audit of its accounts by the War Department will constitute the final record of Red Cross activity during the war. Although it has been the rule to make public all expenditures when authorized and to give detailed information relative to all work undertaken, the War Council in turning over its responsibilities to Dr. Farrand and his associates desire to give a brief resume of Red Cross war time activities to the American people, to whom the Red Cross belong, and whose generous contributions have made possible all that has been accomplished.

"During the past nearly twenty-one months the American people have given in cash and supplies to the American Red Cross more than \$400,000,000. No value can be placed upon the contributions of service which have been given without stint and of ten times at great sacrifice by millions of our people.

"The effort of the American Red Cross in this war has constituted by far the largest voluntary gifts of money, of hand and heart, ever contributed purely for the relief of human suffering. Through the Red Cross

Assets Rheumatic Impurities Can't Stay in Body

When My Prescription Goes in, Rheumatism Goes Out Along With All Poisonous Uric Acid, Says Discoverer.

James H. Allen

Because he was crippled with terrible rheumatism and unable to work, and because doctors failed to help him, Mr. James H. Allen of Rochester decided to help himself.

Persistent study, ceaseless patience and frequent experiments convinced him that before anyone could be free from rheumatism the poisons and impurities often called uric acid deposits, must be dissolved in the joints, ligaments and muscles and expelled from the system.

It took some years to get this idea into the form of a prescription, but perseverance finally conquered and in a very short period every pain and twinge and trace of rheumatism was forced to flee and Mr. Allen turned himself from a rheumatic wreck into a strong, healthy, robust man.

So pleased was he with his success that he named this wonderful medicine Allenruin. Many others cursed with the agony of rheumatism tried it with results that were almost magical.

Requests for Allenruin became so numerous that a decision was reached to let sufferers know of the discovery through the newspapers and now druggists throughout the country dispense the Allenruin prescription or can get it for you on short notice.—(Adv.)
